

Save Time and Money When You Fill MAINTENANCE MEDICATION PRESCRIPTIONS

You must use the CVS Caremark Retail Maintenance Choice Program or Mail Order Services to fill your maintenance medication prescriptions.

Maintenance medications are prescription drugs taken for chronic health conditions/ concerns (e.g., high blood pressure, high cholesterol or asthma). With the CVS Caremark Retail Maintenance Choice Program, you get a 90-day supply of your prescription drugs at your local CVS pharmacy, while Mail Order Services provides convenient home delivery.

You may fill non-maintenance medication prescriptions at any pharmacy.

Get Started

- Make sure your prescribing physician sets up your prescriptions for the Retail Maintenance Choice Program or Mail Order Services.
- If you have difficulties managing your maintenance medications, call CVS Caremark at **1-866-273-8402**.

For More Information

- Call CVS Caremark **1-866-273-8402** or visit **caremark.com** to learn more about your prescription drug benefit plan, Maintenance Choice, Mail Order Services and other money-saving ideas.
